## TECH TEAM DEFEATS MASS. AGGIES IN CLOSEST MEET THIS SEASON

**Ed. Milde Lowers His Own Previous Mark In the 220 Yard Dash  
—French Also Sets Record**

**RESULT OF MEET UNDECIDED UNTIL LAST EVENT WHEN DOCKHAM  
WINS JAVELIN THROW AND CLINCHES MEET FOR TECH BY 3 1/2  
POINTS WITH SCORE 64 3/4 TO 61 1/4 IN TECH'S FAVOR**

For the second successive time in as many many track meets Ed Milde, this year's track luminary, shattered the record for the two-hundred yard dash. He clipped four-fifths of a second from the previous record established by himself last Saturday, covering the course in the fast time of 22 seconds flat. Besides establishing this record he equalled the record of the previous week in the 100 yard dash, doing the century in 10 seconds flat.

Not to be outdone by his teammate, Walt French, crack hurdler, topped the timbers in the two-hundred low hurdles in 25 seconds flat, shearing four-fifths of a second from the mark set by Dri Thomson at the Eastern Intercollegiate held here last year. This record set by French clears up the shadow of doubt as to the equalling of a record which occurred last week in the Tech-Tufts meet when French went

(Continued on Page 3, Col. 1)

## TECH NET TEAM DOWNS TRINITY

**Engineers' Strength In Singles is  
Deciding Factor**

The Tech tennis team showed top form Saturday by defeating the Trinity netmen 4-2, by winning three singles and one of the doubles matches, losing the others only after hard struggles.

Capt. Kranz easily defeated Langdon of Trinity taking one love set 6-0 and the second set 6-1. Dick Irons also had little trouble taking two sets from Rulneck of Trinity 6-1, 6-1, but Bob Cotton experienced a little difficulty in taking two hard sets from Baldwin 6-4, 6-2. Charley Fogg had a hard man to contend with in Bissell, who gave him the first fast set 7-5, and then took the match from Charley by defeating him 6-3, 6-3 in the last two sets.

Kranz and Irons defeated Langdon and Rulneck of Trinity in the doubles by winning the first set 6-3, and clinched the match in the second, which was a love set. In the other doubles match Cotton and Driscoll put up a game fight but finally lost the set to Baldwin and Bissell 10-8. The Trinity pair took the second set much more easily, 6-4.

Summary:

Kranz, Tech, defeated Langdon, Trinity, 6-0, 6-1; Irons, Tech, defeated Rulneck, Trinity, 6-1, 6-1; Cotton, Tech, defeated Baldwin, Trinity, 6-4, 6-2; Bissell, Trinity, defeated Fogg, Tech, 5-7, 6-3, 6-3. Kranz and Irons of Tech defeated Langdon and Rulneck, Trinity, 6-3, 6-0; Baldwin and Bissell, Trinity, defeated Cotton and Driscoll, Tech, 10-8, 6-4.

## LAST APPEARANCE OF TECH MUSICAL CLUBS

**Concert Given at Plymouth Church**

The combined clubs of the Musical Association made their last appearance of the season in the Plymouth Congregational Church, last Thursday. The Musicales was held under the auspices of the Christian Endeavor Society of that church.

The musical clubs were well received by the audience. The numbers offered by the Glee Club were especially well rendered with several encores being called for. Frank Wiesman came in for a share of the individual honors, his piano solo bringing forth well merited applause. The entertainment was followed by dancing in the parish house, music being by the Tech Orchestra.

Among the patrons and patronesses present, were President and Mrs. Earle and Professor Coombs.

This C. E. Musicales marks the last appearance of the Musical Association this semester. The clubs have completed a most successful year. Several long trips were made, notably, to Falmouth and to Walpole.

## SOPHOMORE HOP WILL BE HELD THIS FRIDAY

**Large Number Expected to Attend**

Friday evening in the gymnasium, the annual Sophomore Hop will be held from nine until two. The committee has secured "Eddie" Bateson and his Worcester Arcadians to play.

The patrons for the Hop will be: President and Mrs. Ralph Earle, Professor and Mrs. Herbert F. Taylor, Mr. and Mrs. Ivan E. Bigler and Professor and Mrs. Jerome H. Howe.

The gym will be tastefully decorated in spring colors. A novelty dance and refreshments will be added to the order of events for the evening. The committee in charge is as follows: Chairman, Sydney F. Spencer, George W. Cross, Robert S. Heald, Stephen D. Donahue and Louis Gezyk.

### CALENDAR

**WED., MAY 11—**

4:00 P. M.—Baseball, Trinity vs. W. P. I. at Alumni Field.  
7:30 P. M.—Camera Club meeting, "Y" reception room.

**FRI., MAY 13—**

4:00 P. M.—Tennis, B. U. vs. W. P. I.

8:00 P. M.—Sophomore Hop, Alumni Gym.

**SAT., MAY 14—**

10:00 A. M.—Preliminaries, Eastern Intercollegiate.

2:00 P. M.—Finals, Alumni Field.

3:00 P. M.—Baseball, Clark at Clark Field.

**MON., MAY 16—**

4:00 P. M.—News Assignments.

4:00 P. M.—Golf, Holy Cross vs. W. P. I., Country Club.

4:00 P. M.—H. C. vs. W. P. I.

## FIFTEEN HIGH SCHOOLS COMPETE IN ANNUAL INTERSCHOLASTIC MEET

**Schenectady Schoolboys Break Five Records To Win By a Large Margin—Brockton Finishes Easy Second**

**EVES BREAKS RECORDS IN SHOT PUT AND DISCUS, COHN IN HIGH  
HURDLES AND HIGH JUMP, VAN WERT IN POLE VAULT—RE-  
MAINING TEAMS SPLIT UP POINTS RATHER EVENLY**

## TECH LOSES TO R. I. STATE COLLEGE 13-3

**Unable to Overcome Early Lead**

In a slow but interesting game at Kingston, R. I., last Saturday, the Engineers lost their fifth consecutive game of the season to Rhode Island State College, 13-3. The Clamdiggers had a heavy-hitting team which always managed to connect at the right time. In the first inning their seven hits accounted for seven runs. Rhode Island scored three more runs in the fourth frame and another three in the sixth.

The Engineers went into the game with a grim determination to bring home the bacon, but the Collegians' seven-run lead proved to be too great. Tech broke into the scoring column in the first inning when Brackett scored on J. McCarthy's hit.

J. McCarthy seemed to be the only Engineer to solve the offerings of Draghetto, when in two times at bat he got two hits, boosting his average to .632 and earning for himself the title "King of Swat."

Graham, pitching his first game for Tech, was replaced by Robinson in the first inning when the Collegians knocked him out of the box with three runs and none out.

(Continued on Page 3, Col. 1)

## AFTERMATH OF 1928 GETTING INTO SHAPE

**Complete Staff Is Now Chosen**

Plans have been going ahead rapidly for the 1928 *Aftermath*, of which Gifford T. Cook is Editor-in-Chief, A. L. Wilkinson, associate editor; S. L. Marino, business manager; and C. B. Muzzy, advertising manager. These men have already appointed their assistants, as follows: assistant business manager, I. M. Dockham; assistant advertising manager, Frank Fleming; division editors, who will take care of their departments, are: electricians, J. Driscoll and L. Wilcox; mechanics, A. Naylor; civils, M. Aldrich; chemists, C. Durbin. These men are working to gather their material so as to have as much as possible done before next year. Editor Cook and Wilkinson have received bids for the engraving, and have considered several cover copies, but as yet no definite decisions have been made along these lines.

Meanwhile, work has been progressing rapidly on the 1927 *Aftermath*, and it is expected that the copies will be ready for distribution soon.

Last Saturday, Schenectady High School athletes won the annual Tech Interscholastic track meet, with 42 1/2 points. Brockton was second with 19 1/2, and Worcester South High third with 13. The other teams in order of finishing were: Leominster 12, Spencer 10, Newton 9, Commerce 6, Brookline and North 5 each, Springfield Tech 4, Concord and Mansfield 3 each, and Fitchburg 1. Northbridge and Classical did not score.

The best performance was that of Eves, of Schenectady, who got the highest number of points for individual scoring, and also broke two records. He pushed the shot record from 41 feet, 4-10 inches up to 43 feet, 5 inches, and increased the discus record by over eight feet to 113 feet, 3 inches.

**NEW POLE VAULT RECORD**

The last record to be broken was the pole vault record. Van Wert of (Continued on Page 5, Col. 2)

## TECH GOLFERS TIE AMHERST

**Captain Stewart and Styffe Win  
Singles Matches**

The golf match between the Amherst and Worcester Tech teams ended in a 3 to 3 tie at the Mount Tom Country Club last Saturday.

George Styffe experienced little difficulty in defeating Amherst's Captain Lawson. Styffe's medal round was 78. His match ended on the 13th green with Lawson six down and five to play.

Captain Ed Stewart also won in the singles, defeating Johnson 1 up in 20 holes. It was in the final matches that Amherst came up to tie Tech. Meek of Amherst scored a 2 and 1 victory over Mike Boyle, while Mahoney defeated Backstrom by 4 and 3.

In the foursomes Styffe and Stewart defeated Lawson and Johnson, 4 and 3, while Boyle and Backstrom were beaten by a like score.

**WORCESTER TECH**

George Styffe (6 and 5)	1
Ed Stewart (1 up 20 holes)	1
Michael Boyle	0
Carl Backstrom	0
Styffe and Stewart (4 and 3)	1
Boyle and Backstrom	0
	3

**AMHERST**

Norman Lawson	0
Red Johnson	0
J. H. Meek (2 and 1)	1
Fred Mahoney (4 and 3)	1

**Foursomes**

## AFTERMATH OR ?

We have heard comments around the Hill on and off now for the past few years as to the advisability of creating a new college annual to replace the "Aftermath". If there is any background for this talk, we believe that the time is ripe now for it to come to a head, for if it should be changed, the sooner it is done the better. As we look at it, the "Aftermath" has been published yearly at Tech for a considerable period. Until recently there has been no apparent effort expended in attempting to make the "Aftermath" anything more than just a class book for the graduating men to purchase in order that they might look upon it in future years and recall the familiar faces of their college days. Let us ask you one question. Is that the sole reason why a college should publish a book of cut and dried facts each year?

Other colleges have annuals. They are school year books and contain much material of general interest to everybody rather than just the Seniors. Why can one at Tech not enjoy the same sort of a publication? One point that must be made clear is this one: It is easy enough to change the book inside of the cover to conform with the college annual ideas, but what about the cover itself. The very name "Aftermath" which lies thereon defeats the purpose of all efforts to make the book of general interest to all. What is the meaning of "Aftermath"? Noah Webster defines it as "a second mowing as a crop of grass cut from the same soil after the first crop of the season." To us it means a similar thing. Looking back from the future into the past, or in other words, reviewing our four years of college life when we graduate. With a handicap like this, how can it be expected to institute an annual in place of a class book?

This is not the only objection to the "Aftermath". What mark of distinction is there about the mere name "Aftermath"? What is there to tie it up with Worcester Tech? There are perhaps a hundred Aftermaths spread out over this country published by colleges and high schools and not one of them is Worcester Tech's. As a matter of fact there is another Aftermath right here in Worcester. The year book of one of the city's best known high schools bears that name. On the other hand, most colleges have books which mean something. Vermont has its "Anvil," Cornell its "Cornellian," Dartmouth has its "War Whoop," M. I. T. its "Technique," Army its "Howitzer" and Navy its "Lucky Bag." We could name off many others. Books carrying names that mean something and tie it up immediately with the college at which it is published.

This matter is not one of passing interest, but one that will always be present unless some one takes the initiative and brings pressure to bear to change the name. It is a question that should interest the student body as a whole, for it is assumed that every class will face the same problem before it files out of this institute.

It would be of great advantage if those interested in this proposed change would so express their opinions that there might be some definite idea of how the feeling runs at Tech. In closing there is just one single statement to give weight to. The "Aftermath" is not a college annual and never will be as long as it retains that name.

## CIVIL PUBLICATION MAKES BID FOR FAME

### Many Innovations Featured

TECH NEWS must at last admit competition from its hitherto unchallenged position as the medium by means of which students and Alumni are informed of the happenings on the Hill. There has sprung up under the very roof that shelters the NEWS office a rival publication to which the NEWS, while still confident of its ability to hold its readers, looks with no little respect. This paper, the C. E. Survey, is published bi-weekly in the Civil Drafting room on the first floor of Boynton Hall. Its circulation, very small at first, and confined to the Senior Civils, has gradually grown to sufficient proportions to warrant its acceptance of the paper as an established thing. Several of the faculty are interested readers, chief among them being professors in the Civil Department, whose lectures have appeared at various times in the columns of the "Survey."

The new paper boasts of several novel features, one of which, it is believed,

is an innovation in even these days of blue, green and red tabloid sheets. The "Survey" is printed in white on a black background. This funeral appearance is quite effective and is particularly appropriate, as it illustrates the result of being exposed to the courses of the civil department. The somberness of the sheet is relieved, however, by the rotogravure section, which appears with it, and which contains exclusive pictures never before shown to the public.

The "Survey" has everything that is considered the thing in a modern newspaper—scandal, advertisements, editorials, comics and special features, not to mention news. It ranks favorably with all our other great newspapers as can be expected, considering that it is published on a blackboard and printed in chalk.

## FULLER LECTURE

(Continued from Page 1, Col. 2)

Job; Mr. Albert R. Stoessel spoke on "The Art of Listening to Music;" Mr. C. M. Ribley of the General Electric Co., had as a subject "My 2500 Mile Aeroplane Trip;" Dr. George Otis Smith, director of the United States

## CAMERA CLUB EXHIBIT TO BE HELD THIS WEEK

### Pictorial Prints To Be Shown

The annual exhibition of the Camera Club will be held this week, Thursday to Saturday inclusive, in the "Y" reception room. The exhibition will include work by all members of the club during this past year. As in previous years, this work will be largely pictorial and the pictures will be more artistic than technical. Between 30 and 40 prints will be shown including, besides bromide enlargements, several representative of the special processes of photography.

The pictures will be judged and prizes awarded Thursday afternoon at 5 P. M. by a jury of three of the leading photographers of the Photo Clan. There will be a very important meeting of all members of the Club Wednesday evening in the Reception Room at 7.30 to hang the prints.

Geological Survey, who spoke on "The Forward Look by the Department of the Interior;" and Mr. Frederick P. Warfield on "Patent Law."

**TECH TRACK MEN DEFEAT MASS. AGGIE**

(Continued from Page 1, Col. 1)

over the same course in 26 seconds flat. The winner of the meet was not decided until the final event, the javelin throw, when Dockham won the event and clinched the meet for Tech by the margin of 3½ points and a final score in Tech's favor 64½ to 61½ for the Aggrarians.

Chet Doe ran his usual well planned race in the two mile event taking first position in the first lap and maintaining all the way home with Nelson also of Tech in second position.

Milt Aldrich ran a hard race in the four-forty to lose out by a small margin at the tape. The margin between him and Swan, who took the event, was so small that the judges did not give a decision immediately but held a short conference. In the pole vault Query and Matulatus took first and second respectively with Lane of M. A. C. tying for third with Reynolds and Schuka of Tech.

**Summary:**

120-yard high hurdles, won by French, W. P. I.; 2nd, Clements, M. A. C.; 3rd, Bradford, W. P. I. Time, 17 seconds.

100-yard dash, won by Milde, W. P. I.; 2nd, Josephs, W. P. I.; 3rd, Kay, M. A. C. Time, 10 seconds.

Mile run, won by Schapelle, M. A. C.; 2nd, Henneberry, M. A. C.; 3rd, Meigs, W. P. I. Time, 4 minutes 32½ seconds.

440-yard run, won by Swan, M. A. C.; (Continued on next column)

**R. I. BEATS TECH**

(Continued from Page 1, Col. 4)

Tech plays Trinity Wednesday and a hard game is expected, as Trinity has beaten Northeastern and Northeastern has defeated Tech 5-2.

Saturday, Tech plays Clark College. Both Clark and Tech have lost to M. A. C. and the Engineers will be all primed up for the fray. Many of Tech's loyal and staunch-hearted rooters will be present to cheer its team on to victory at Clark Field.

**WHOO'S WHOO FROM WOOSTER TACK**

With Apologies to  
MILT GROSS

Wance oppun a time was a liddle boy wit de name uff Hiram Pillups, und he went to school like all good liddle boys, dot he should know everyting und become famous like Habbie Lincun and Beb Rutt.

Wan day he sad "mebbie I should gat a job und be rich," und de naxt mornink he guve a knock on he dur uff de chemistry depotment. "Come in" sad Dr. Jannings. "What you want?" "I rad in de Gazzette what you want stock clerk here. I'm de best in de city."

"You like hate o'clock," esked de Doctor.

"Sure," sad Hiram, "Whan I was a baby I woke up efery mornink hate o'clock."

"Take off de cut," sad Dr. Jannings, so he gredually went to work.

Wan day de buzzer buzzed und he went into de office. "What can I do for you," he esked.

"Hm, don't esk," said de boss. "De faculty had a midding last nide. Business is poor."

"Dot's easy," sad Hiram. "We should haf a benkrupst sale und make some money." So de next day was a sign on de stockroom.

Sacrifice Benkrupst Sale!

Closing out!

Test Tubes—2 for 25c.

Next week showed de books a profit with a soipus, un de faculty gif a dividend uff 10 per cent. with a commission for Hiram, so he should get married und live heppily effer after.

**COSTUME BALL IS INDEFINITELY POSTPONED**

One of the social affairs of the year, failed to take place Friday night, when, at the suggestion of the Clark Cosmopolitan Club, the Costume Ball was indefinitely postponed. Saturday was sub-Freshman day at Clark, and this, more or less, was the main argument produced by the Clark "Cosmos" for the postponement of the Costume Ball.

Preparations for the Ball will continue and in all probability it will take place next fall, initiating Tech's social season.

(Continued from column 2)

Broad jump, won by Webber, M. A. C.; 2nd, Hall, M. A. C.; 3rd, Whittemore, W. P. I. Distance, 21 feet, 3 inches.

Javelin, won by Dockham, W. P. I.; 2nd, Hall, M. A. C.; 3rd, Crukos, M. A. C. Distance, 141 feet, 7 inches.

Shot put, won by Dix, W. P. I.; 2nd, Prohovitch, W. P. I.; 3rd, Coukos, M. A. C. Distance, 34 feet, 2½ inches.

Discus, won by Cougos, M. A. C.; 2nd,

**CLOSE BOWLING MATCH TAKEN BY FRESHMEN****Championship Finally Decided**

Last Thursday afternoon, the Freshmen, working again as a unit, won the interclass honors by defeating the crack Senior team. This came as a distinct surprise, for among the Seniors are some of the best bowlers on the Hill. The contest was very close and interesting throughout.

The first three frames resulted in a tie; the Freshmen winning two of the frames while the Seniors took one, and highest total pinfall. Each man had to roll five extra boxes to decide the contest. The first year men came through with a win in this extra period and won the match by piling up 213 points against 206 for the Seniors. "Don" Calder was easily highest scorer for the upper classmen, though he was well supported by his teammates, "Billy" Rauha, "Eddie" Gross, B. S. Graves, and P. H. Norgren.

Burrell, M. A. C.; 3rd, Carlson, W. P. I. Distance, 104 feet, 9 inches.

# Commencement isn't the end— It's just the Beginning!

IT'S mighty easy to think of Commencement as the end of everything that's care-free and pleasant. But don't make that mistake.

The cold, gray world after college isn't so cold and gray to the fellow that tackles it in the right spirit.

Of course, it isn't going to pay you a fat salary right at the start-off. That isn't the way it does things. Instead, it is going to put you through a testing and seasoning process which will measure your grit and your stamina and find out whether you're a *dependable performer*.

Once you've proved your dependability, you'll get responsibility and with responsibility comes income. And remember this—you'll consider yourself an experienced and dependable engineer long before the world admits it. It's that waiting period which will try your pluck.

In the meantime build your reputation of top-quality materials. Team up with the best in every job you handle. Stand for, *fight for* the best materials, the best designs, the best construction methods. Don't let your name get associated with second-bests, make-shifts and could-have-been-betters.

It's a great world. I've seen something more than a century of it and I know. And it wants you to make good.

*Sincerely yours,*

# Vitrified Paving Brick

NATIONAL PAVING BRICK MANUFACTURERS ASSOCIATION, ENGINEERS BLDG., CLEVELAND, OHIO

Sullivan General Sales Conference, Michigan City Plant, January 1927

## Is this your Opportunity?

**E**ACH YEAR, the Sullivan Machinery Company selects a number of engineering graduates to augment its sales force. If you are interested in sales work, this may be your opportunity. It is an opportunity which many young engineers have already grasped. Previous announcements have told you about the Company, the industries it serves, the equipment it manufactures.

The Company is a large one, large enough to provide abundant room for you to grow in, to develop your ability, to reward you as amply as you may deserve. Yet it is not too large to prevent personal contacts between the younger men and the executives in charge of the Company's policies and progress.

The Company has certain standards to maintain—in the excellence of its products, in dealings with its customers, in its relations with its own people. Men for its sales staff are chosen because their record indicates they will help to maintain these standards.

The new men receive factory training in the construction and use of Sullivan equipment. At the same time they study selling methods and problems. They are then given some field experience, next assigned to a sales office under a veteran manager, where they complete their sales training, and finally given a definite territory to cover.

Pay starts when the new man begins his factory work. Salesmen are paid a salary and a commission on sales. The chances for advancement are good, depending largely on the ability and character shown by the individual. Assignment to the foreign staff is one possibility which appeals to some men.

*This may be the opportunity you are seeking. If interested write for booklet "Sales Engineering Opportunities," to our general offices at Chicago.*

INTERSCHOLASTIC TRACK MEET  
(Continued from Page 1, Col. 5)Schenectady received some tough op-  
position from Lawrence Brown of Leominster, but at 11 feet Van Wert took a beautiful vault on the first shot, and Brown could not make the grade. This broke the old record by half a foot. Van Wert also got 24 points by tying for second in the broad jump.

Eugene Record, captain of Brookline High team, equalled the record in the 220 low hurdles, running a fine race to beat Jim Barron of North High by eight yards. This accounted for all of Brookline's points, Barron getting North High's points by taking second in this race and third in the high hurdles.

The quarter mile event was the best race of the day, bitterly contested for between two Worcester men, Leon Andrews of South, and Malcolm Pratt of Commerce. Pratt got the lead early and maintained it almost all of the way around, when Andrews picked up and passed the leader a dozen yards in front of the tape to beat him by half a foot. Andrews made it in the good time of 52½ seconds.

## LOCAL MEN WIN

Morin of David Prouty High School in Spencer now came to the fore and took first place in the 100 yard dash, to beat Grenier of Schenectady in 10½ seconds. Later Morin took first place in the broad jump, doing 20 feet, 2

inches. This gave Spencer 10 points and fifth place in the meet.

The 220 yard dash was won by Lendh of Brockton, who beat Smith of South, and Proctor of Springfield Tech by split inches.

Schenectady again scored in the 880 by taking second place, McCrudden of Newton won it in the average time of 2 minutes 6½ seconds.

## SUMMARY

120 yard high hurdles, won by Cohn, Schenectady; 2nd, Davidson, Brockton; 3rd, Barron, North; 4th, Eves, Schenectady. Time, 17 seconds (new record).

100 yard dash, won by Morin, Spencer; 2d, Grenier, Schenectady; 3rd, Proctor, Springfield; 4th, Toulon, Leominster. Time 10½ seconds.

1 mile run, won by Gould, South; 2nd, Cobb, Mansfield; 3rd, Ritchie, Schenectady; 4th, Ricker, Concord. Time, 4 minutes, 32½ seconds.

440 yard dash, won by Andrews, South; 2nd, Pratt, Commerce; 3rd, Caisse, Leominster; 4th, Proctor, Brockton. Time, 52½ seconds.

220 yard dash, won by Lendh, Brockton; 2nd, Smith, South; 3rd, Proctor, Springfield; 4th, Reed, Newton. Time, 23½ seconds.

REPORTER ELECTED AT  
MEETING OF THE NEWS

## Ruling Passed On Applications

W. A. Newbold, '30, was elected a reporter at a meeting of the NEWS Association, held last Wednesday afternoon in Boynton Hall. A motion was also passed to the effect that candidates for membership in the association must paste their articles on 8½"x11" paper, these papers bound together and a page containing the formal application used as a cover. This will make a neat job and will be much easier to handle than the old haphazard method.

220 low hurdles, won by Record, Brookline; 2nd, Barron, North; 3rd, Putnam, Commerce; 4th, Clifford, Brockton. Time, 26½ seconds.

880 yard run, won by McCrudden, Newton; 2nd, Grodman, Schenectady; 3rd, Merrill, Brockton; 4th, Loguidice, Schenectady. Time, 2 minutes, 6½ seconds.

Shotput, won by Eves, Schenectady; 2nd, R. Brown, Leominster; 3rd, Blom-

SENIOR ELECTRIC POSITIONS  
SELECTED

Now that the end of the college year is in sight, the Seniors are looking around for positions. The following list gives the names of some Seniors and their probable employers:

Richard A. Beth, Instructor in Physics, W. P. I.

Donald A. Calder, New York Telephone Co.

Victor E. Hill, Duquesne Electric Light and Power Co., Pittsburgh.

Donald L. King, New York Telephone Co.

Howard G. Lasselle, New England Power Co.

Purdy F. Meigs, General Electric Co., Schenectady.

Charles F. Monnier, Adirondack Power and Light Co.

Armand L. Paquette, Westinghouse Electric Co.

Edward J. Purcell, Jr., Morgan Construction Co., Eng. Dept.

berg, Leominster; 4th, Asbiopson, Concord. Distance, 43 feet, 5 inches (new record).

—another reason why Koehring Pavers Produce  
Dominant Strength ConcreteVITALLY important to the resultant strength  
and durability of concrete is the admittance  
of an accurate amount of water into the mixing  
drum at exactly the right instant. Long ago the  
Koehring Company recognized this fundamental  
requirement and set to work to devise an au-  
tomatic water measuring system.Today, the system is as nearly exact and accurate  
as human ingenuity has been able to design. A  
balanced three-way valve is automatically open-  
ed at a certain point, by the charging skip as it is  
raised, admitting the water into the mixing drum  
at exactly the right instant. The regulating  
hand wheel governs to a minute accuracy the  
amount of water which is to be used per batch.All dribble is eliminated by the syphon-gravity principle  
which draws the water through a straight ¾ inch  
pipe into the mixing drum. Straight flow from the tank  
to drum secures a fast, clean discharge.This is another pioneering development by Koehring  
engineers which with the Koehring batch meter, Koeh-  
ring boom and bucket, and Koehring five action re-  
mixing principle produces standardized, dominant  
strength concrete of unvarying uniformity.A and B illustrate clearly why changes of grade do not  
materially affect the accuracy of water measuring when  
using the Koehring system. X represents the volu-  
metric center of the tank and Y the measuring arm."Concrete—Its Manufacture and  
Use" is a 210 page treatise on the  
uses of concrete, including 26 pages  
of tables of quantities of materials  
required in concrete paving work.  
To engineering students, faculty  
members and others interested we  
shall gladly send a copy on request.KOEHRING COMPANY

## INTERCOLLEGIATES TO BE HELD SATURDAY

Ten College Track Teams Here

Next Saturday, Alumni field will be the scene of another record-breaking track meet when ten colleges of the East meet in competition at the Eastern Intercollegiate Track Meet. Although Springfield, last year's champions, are not entered this year, the addition of Rhode Island State and Union College promises to make things interesting.

The entries include Connecticut Aggies, Massachusetts Aggies, Northeastern, Norwich, Trinity, Tufts, Vermont, Rhode Island, Union and Worcester Tech.

Tech looks as though it will come through with Eddie Milde and Walt French breaking records in two successive meets. The rest of the team is in excellent form, and Purdy Meigs, Dockham, Delano, Prohovich, Dix, Nelson, Josephs, Topelian, Query, Aldrich, Price and Matulaitis should make a very creditable showing.

## INTERSCHOLASTIC TRACK MEET

(Continued from Page 5, col. 5)

Pole vault, won by Van Wert, Schenectady; 2nd, L. Brown, Leominster; 3rd, Stewart, Brockton; 4th, Thompson, Concord. Height 11 feet (new record).

High jump, won by Cohn and Ashman, both of Schenectady, tie; 3rd, Ebelhare, Newton; 4th, Moissio, Fitchburg. Height 5 feet, 8 1/2 inches (new record).

Broad jump, won by Morin, Spencer; 2nd, Van Wert, Schenectady, and Prince, Brockton, tie; 4th, Bloom, Commerce. Distance, 20 feet, 2 inches.

## ENGINEERS DROP GAME TO N. U.

Last Inning Rally Wins 5-3 Game  
For Boston Team

Northeastern University avenged its defeat of last year to Worcester Tech, and nosed out a 5-3 victory over the Engineers, by means of a ninth inning rally in which they scored three runs. Tech tallied first when Brackett reached first base on an error. Leamy and McCarthy singled, bringing Brackett over with the first run.

Tech strengthened its lead in the third inning when Harris singled and was advanced when Leamy worked a pass. Joe scored on McCarthy's single.

Northeastern tied the score in the fifth frame but Tech came back in the sixth to take the lead. Tawter tripled and came home on a fielder's choice.

The ninth inning spelled disaster to the Boynton Hill athletes when two singles, a walk, and a triple scored three runs for Northeastern.

It was a nip and tuck battle all the way through with Crowley having the

## HARVARD GOLFERS DOWN TECH BY 5-1 SCORE

Styffe Contributes Only Win

At the Worcester Country Club course on Tuesday, May 3rd, the Cambridge team handed out a 5-1 defeat to the Boynton Hill golfers, shattering their hopes for another season of continuous victories. Although it was a good match, neither team exhibited anything extraordinary in the rounds of the course.

Captain George Styffe provided the one upset which contributed the lone local point. This was scored by his defeating Eddie Stimpson, leader of the Harvard team.

Barnum and Stimpson took a four-some victory over Styffe and Boyle, while Morrill and Hutchinson took a clean sweep over Stewart and Backstrom.

edge on Calder for pitching honors.

Calder was at times wild, passing six men. He struck out seven while Crowley fanned nine and passed only two.

## These moderns demand Camels

MODERN smokers are the most critical ever known, and Camel is their favorite. Why?

Camel is the one cigarette that will stand up all day and as far into the night as you care to go.

Modern, experienced smokers know that they can smoke one or a million Camels with never a tired taste or a cigarettey after-taste. Present-day smokers

demand goodness, and find it in Camels — the choicest tobaccos grown and matchless blending. That is why Camel is favorite in the modern world.

If you want the choice of the hardest-to-please smokers of all time, if you yearn for the mel-lowest mildness that ever came from a cigarette—

"Have a Camel!"
